

1. Pre-Donation Donor Temperature Screening.

- 1. All Donors will have their temperature taken before being permitted into the blood drive
- 2. If your temperature is above 99.5 F you will be asked to donate at another time

2. Donor Safety

- 1. Donor will be asked to wear mask while at the blood drive. The American Red Cross will provide mask to donors if they do not have one

3. Enhanced Disinfecting

- 1. Hand sanitizer will be available at check-in, health history and refreshment areas
- 2. Blood donors will be asked to use hand sanitizer before and during the donation process
- 3. Donor beds will be sanitized between each and every donor

4. Social Distancing

- 1. We're taking extra measures to allow medically recommended space between donors wherever possible. This includes health history and bed set up at 6 feet apart

5. Staff and Volunteer Wellness and Protection

- 1. All staff and volunteers are asked to check their temperature before presenting to work, and asked not to report to work if they are feeling sick or test above 99.5 F
- 2. Staff and volunteers will wear gloves throughout entire blood drive, changing gloves between every donor
- 3. Staff and volunteers are required to wear mask

6. Canteen Area

- 1. There will be no baked goods in the snack area. All food and drinks will be prepackaged

7. Rapid Pass

- 1. All donors are encouraged to use the Red Cross RapidPass in order to reduce the time that you spend at the health history station
- 2. Go to the app store and download the American Red Cross Donor App
- 3. Any donor that is uncomfortable waiting in the building until it your turn to donate can check in, give us your cell phone number and we will text you when it your turn.
